

Work Experience

Blinkit (Eternal)
Product Designer
Dec '25 - Present

- Leading pharmacy and AI initiatives on the Blinkit consumer app
- Designing a 0→1 internal planning tool for category teams to optimise campaign events and sales planning
- Collaborating with product, data and category teams to streamline workflows and improve operational efficiency

Dream11
Product Designer
April '25 - Dec '25

- CricBuzz11 (April '25 - Aug '25 - *ceased operations due to RMG bill*)
- Launched two 0→1 features for the Cricbuzz11 fantasy cricket for the Cricbuzz11 - Cricket Fantasy app, a Dream11 subsidiary
 - Introduced “Upload Team”, contributing to 8% of total teams created per match (vs. 2–3% projected).
 - Reduced campaign asset turnaround time by 75% by standardising banner templates with JSON styling and building an internal GPT-based workflow.
 - Led user research initiatives to uncover gameplay behaviours and inform data-driven product decisions.

- Dream PLAY (Sept '25- Dec '25)
- Designed and shipped core MVP flows for Dream PLAY (Padel) including login/signup, report, slot selection for partner courts, and tournament reports
 - Designed features to enhance reports with an advanced video player featuring shot-based milestones.
 - Built scalable UI foundations using design tokens and component-level style guidelines.
 - Created high-fidelity motion prototypes and Lottie animations, contributing to 100% conversion during product demos with potential partners.

Cure.fit
Product Designer
October '23 - April '25

- Revamped and launched 6+ core features across the cult.fit consumer app and internal tools.
- Led 3+ 0→1 initiatives contributing to engagement and growth across fitness and sports verticals.
- Designed a skill assessment framework for badminton, improving partner matching for cult PLAY members.
- Conducted user interviews and usability testing with players and stakeholders to uncover behavioural insights and refine product flows.
- Founded & led the internal badminton club to foster culture and team bonding

BYJU'S
Associate Product Designer
January '22 - July '23

- Built and maintained a scalable cross-platform design system.
- Shipped 5+ UX features across the learning ecosystem.
- Led 0→1 initiatives, including ecosystem unification and engagement features like student profiles.
- Conducted Gen-Z research studies to inform product strategy and feature prioritisation.
